Teachers will take away suggestions for **WHAT** and **HOW** to study for the Praxis Assessment for English Speakers of Other Languages (ESOL). The Bootcamps are designed to help teachers prepare their thinking and their classrooms for students whose first language is not English. The expectation for ESOL endorsed teachers is that they will be able to structure their classrooms, lesson plans, and teaching strategies to successfully support English learners. There are 3 separate Bootcamps in this series. Pick one or more as needed to support your preparations for the ESOL Praxis.

No lunch will be served.
